Profile Summary

Completed hands-on training in MERN Stack Development, building responsive and interactive web applications while working with modern web technologies and APIs. Currently learning Agentic AI concepts, including Prompt Engineering and RAG, and exploring AI-powered application development. Strong foundation in C++ with good problem-solving and analytical skills.

Internship Experience

Toshal Infotech | Web Development Intern May, 2025 to June, 2025
Received hands-on training in HTML, CSS, JavaScript, and API integration while developing responsive web applications and strengthening web development fundamentals.

Education

Higher Secondary Education	March-2023
• Shree Vasishtha Vidhyalaya, Kamrej, Surat	92.37 PR
CHARUSAT - B.Tech	2023-2027
• Chandubhai S. Patel Institute of Technology, Anand	CGPA - 8.94

Projects

Helpchain - Problem Solving Platform	Github-link
- Developed HelpChain, a community-driven QA platform where users can post problems, share solutions, vote on answers, and collaborate effectively. Implemented secure authentication using password hashing and JWT tokens, along with Toast UI Editor and AI-powered tag generation and difficulty prediction features. - Technology Stack : ReactJS, NodeJS, ExpressJS, MongoDB	
Employee Management System	Github-link
- Developed an Employee Management System with role-based access for HR, Project Managers, and Employees, enabling employee management, payroll processing, leave management, project allocation, and task tracking. - Technology Stack: ReactJS, NodeJS, ExpressJS, MongoDB	

Technologies

Languages: C++, C, Python

Programming Concepts: Data Structure and Algorithm, Data Analysis and Algorithm, DBMS

Frontend Technologies: HTML, CSS, ReactJS (Basic)

Databases & Backend Frameworks: MySQL, MongoDB, NodeJS, ExpressJS

Development Tools: VS Code, Git, GitHub

Achievements

Technical Treasure Hunt: 1st Runner-up (IEEE CSPIT) – Showcased problem-solving, teamwork, and analytical skills.	Certificate
PyQuest Hackathon: 3rd Ranked out of 30+ teams in the PyQuest Hackathon for proficiency in Python development; solution identified and fixed the two biggest causes of algorithm inefficiencies during the competition.	Certificate
NPTEL: Data Structures and Algorithms using Java	Certificate
NPTEL: Design and Analysis of Algorithms	Certificate
